Size/color	Tailored Solutions Available
Max Speed	Up To 2.0 m/s
Control System	Inverter & Servo Control, Soft Start & Stop
Reinforcement Bars	Multiple Horizontal Steel Bars
Wind Resistance	Up To Class 8–10
Frame Material	304 SS/Powder-Coated Galvanized Steel

DRAWING

PRODUCT BRIEF

Stacking Speed Door is a heavy-duty door designed for large openings and harsh environments. Its reinforced PVC curtain with horizontal bars folds upward for strong wind resistance and long-lasting durability. Equipped with safety control systems, it ensures smooth, reliable operation in busy loading and industrial areas.
